### 2.1. Trang chủ Delos:

## Our Work

We're proud to be highlighted as one of most innovative software service providers worldwide.

### Web Application Development

We dedicate our expertise and strong user experience to bring full-scale, powerful web solutions optimised for both desktop & mobile browsers.

### Mobile Application Development

Our foresight in software development empowers us to surpass our client's expectations, which leads to rapid returns and exponential growth.

### Enterprise Management Solutions

We provide enterprises with cost-effective software development solutions and IT consulting services to reduce G&A costs and enhance safety, control and efficiency.

### Cloud & DevOps

Our highly trusted and innovative Cloud & DevOps solutions enable greater efficiency in a shorter time, with higher quality at optimal costs.

## Our Products & Services

We work closely with all of our customers in a collaborative environment, helping them define and achieve their vision.

### E-commerce / Retail Solutions

With our dynamic technology solutions, our clients can quickly expand their business, exceed customer expectations, maximise omnichannel capabilities and boost profits.

### Enterprise Management Solutions

Our cost-effective solutions allow our clients to lower the cost of administration, lighten the burden of management and automate processes as per business flow and execution.

### Logistics & Supply Chain Systems

Our tailor-made software development solutions can help enhance the capabilities of managing the information flow, automate Logistics & Supply Chain processes and maximise your ROI.

#### Sharing Economy Solutions

To help our clients to compete with the 'now and happening' pulse of their industries, we become their Tech Partner to build a comprehensive system to connect people in a real-time process with our economy sharing solutions.

#### Solutions for Specific Industries

No matter vertical industry you are, Healthcare, Finance, Retail, E-commerce, Education or Logistics & Supply Chain, we can help you create powerful software & applications with our technology experts and specialists.

### Clients Feedback

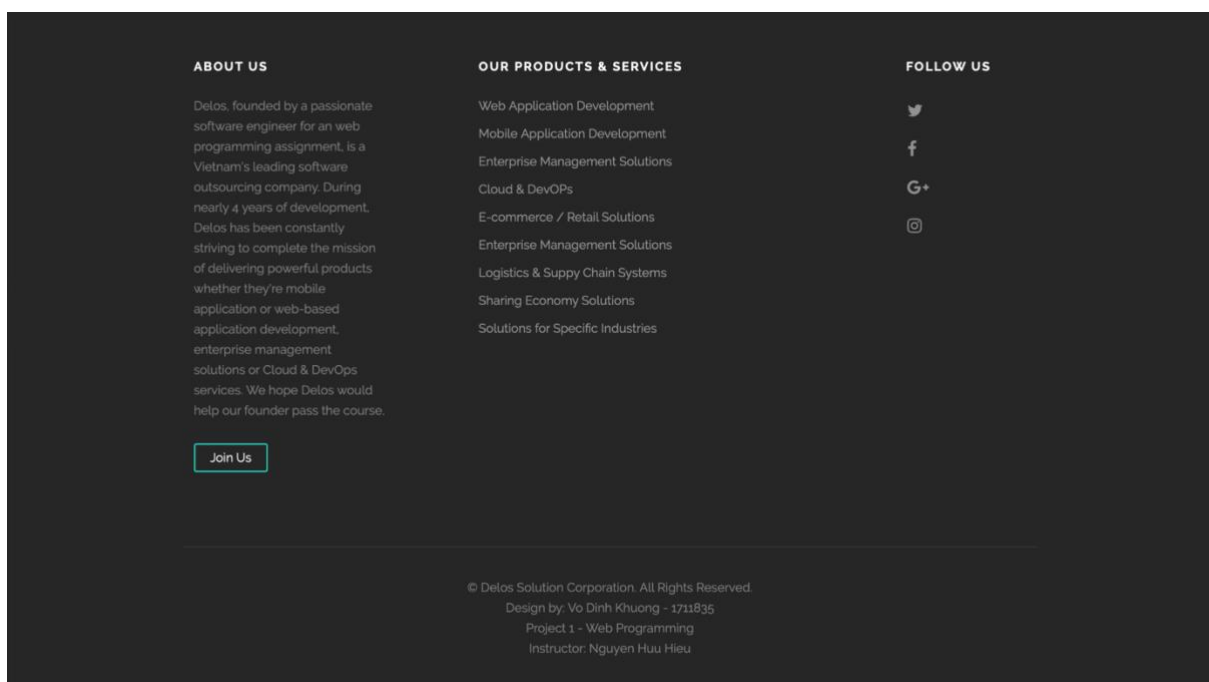

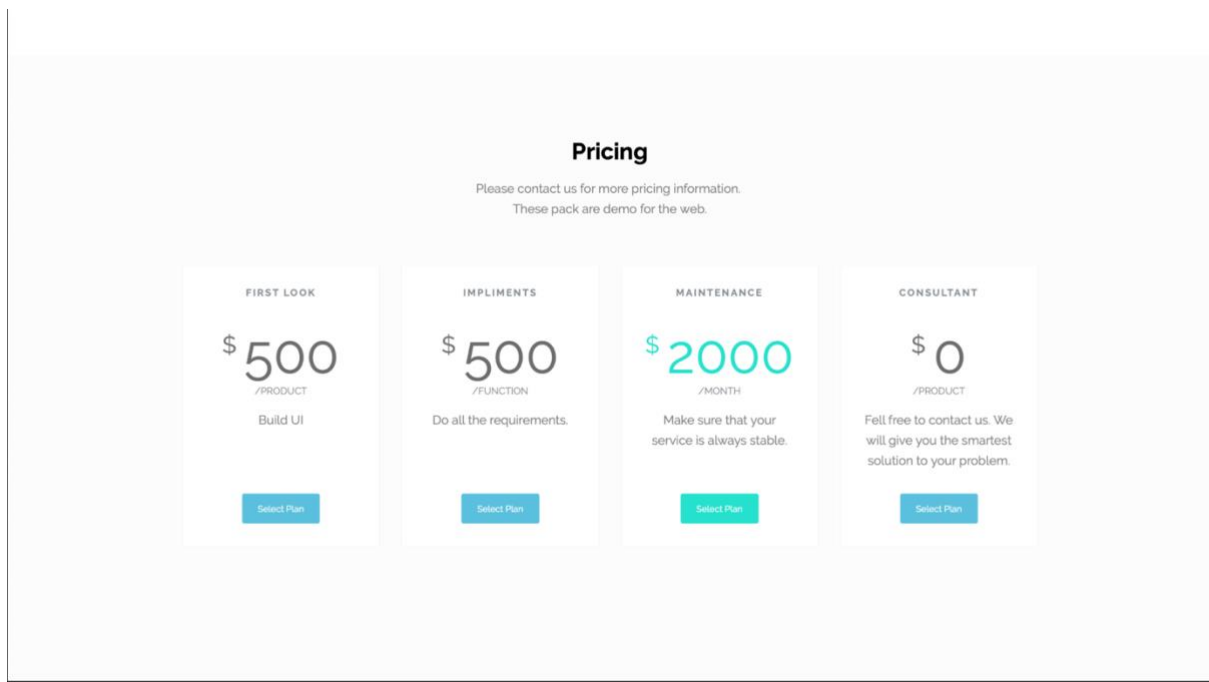

Our customer's satisfaction and achievements is the ultimate indication of our own success.

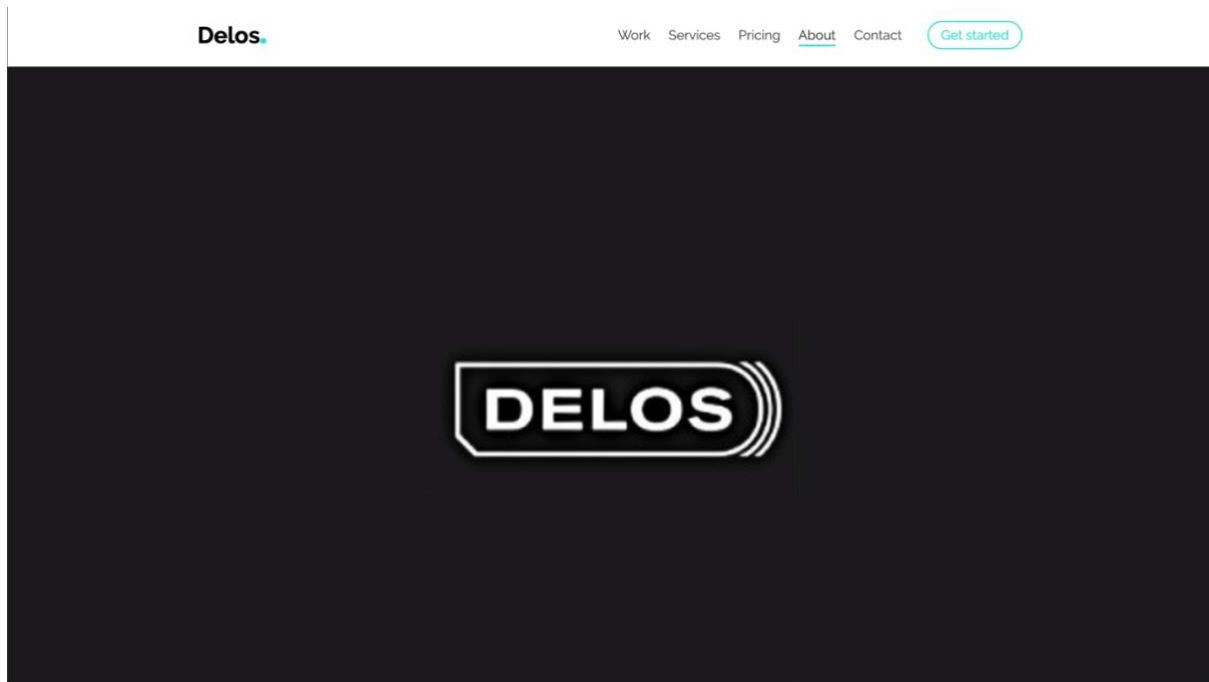

"It's been eye-opening for us to see the breadth of skills that Delos has and commitment that they have, the commitment that people have to the customers, so we've been very favorably pleased by what we've seen."

Mr. John Donovan,  
Chief Strategy Officer, Group President,  
AT&T Technology and Operations.

About:

### Company History

Delos Solution is a global outsourcing company, with deep roots in Vietnam. We pride ourselves on our heritage and feel it gives us the strength to create real value for our customers.

### A Startup Company
